

Resolved that plans of Council working shed be approved. The Committee think it would be as well to raise the top floor one foot; that the matter of taking up the fence from old wharf to Hemingway's be referred back to Council.

Poor of Belgium Fund. PUBLIC MEETING.

A PUBLIC MEETING is called for Wednesday, February 3, to consider the question of holding a

Monster Harvest Festival

in connection with the Canterbury Festival. The meeting will be held in the Akaroa Borough Council Chambers at 8 p.m. All are invited to attend.

UNITED STATES "Nobby Tread" Tires

See those Nobs on the tread of the tire? See how they're placed—the angle of one to another? Now those Nobs are made of big, thick, tough rubber, and not only make the tire a REAL Anti-skid, but they are made on a big thick extra strong additional strip.

TWO TIRES IN ONE

Not only their manner of construction, but the quality and quantity of material used make United States Tires the most economical of all, mile for mile, and cost for cost.

"Nobby Tread" Anti-skid Tires are sold under a warranty of perfect material and workmanship; BUT any adjustments are on the basis of

5,000 MILES

We have a full supply of United States Tires at our Garage. We ask Motorists to come and inspect them. We ourselves are satisfied that they excel any other Tire on the Market to-day.
