HAWKES BAY.
Class C. 3.—Granted Land subsequently conveyed to Trustees in Settlement.

Lands conveyed to C. Heaphy and S. Locke, in Trust for grantees, under Native Land Court awards, say	18,132A.	0R.	0P.
...

NOTE.—The above area is necessarily an approximation only. The grantees hold their lands, generally, in groups of ten in a Crown Grant, and, as each individual interest is not defined, it is impossible, where only a portion of the grantees convey, to determine what their interests amount to, making allowance for those grantees who have sold their interests or have not conveyed, the above area is considered a fair estimate.
