

## Enclosure in No. 4.

## RESOLUTIONS.

1. That the Government be moved to ascertain whether the University has acquired the right of absolutely nominating one cadet every year; whether such nominated cadet would be admitted to the Royal Military College without further examination; whether the University is at liberty to nominate any one of its students, whatever may be his standing in the University; and whether the three rules laid down in the letter from the War Office to the Colonial Office of 29th July, 1880, and the conditions prescribed in the same letter with regard to geometrical drawing, are applicable to cadets absolutely nominated by the University.

2. That the preliminary examination being of such a character that it seems quite unnecessary to establish any organisation other than that which is already in operation for conducting University entrance examination, and the expense attending a journey from New Zealand to Melbourne or any other distant centre being so great as practically to exclude all New Zealand candidates from participation in the advantage which it is proposed to offer, the Government be moved to secure the recognition of the entrance examination of this University as equivalent to the preliminary examination.

3. That the Government be moved to take steps to have the first examination for the B.A. degree of this University recognised as sufficient to exempt candidates from the "further" examination for admission to the Royal Military College.

4. That the Government be moved to take steps to obtain a relaxation of the rule requiring a cadet to enter the Military College within six months of his passing the requisite qualifying examination, by the substitution of "twelve" instead of "six."

17th December, 1880.

SIR,—

With reference to the matriculation examination recently held in New Zealand in connection with this University, I have the honour to inform you that the only candidate who presented himself at that examination (Mr. W. H. Herbert, of Canterbury College, Christchurch) has passed in the Honours Division, and that the marks assigned to him by the Examiners place him next to the seventh of the candidates in the original Honours List, and would have entitled him to a prize had he been examined in this country.

I will communicate this result to the Secretary of the Gilchrist Trust, and you will no doubt hear from him that the Gilchrist Scholarship is awarded to Mr. W. H. Herbert.

I enclose a few pass lists for transmission to New Zealand, together with the candidate's certificate of birth (which we do not require).

I have, &c.,

Registrar.
