				But as the present value of the bonds is computed from the 1st Nov., 1881, the interest due on that date must be paid out of the assets	5,715		
					£16,239		

N.B.—No credit is to be taken for the value of the plant; neither is any account taken of the 560,000 acres of rugged bush land; nor, on the other hand, is the loss estimated on taking up 6 per cent. instead of 5 per cent. debentures.

- (A) In 28 years from 1st November, 1881.
 (B) Assuming the revenue came in in 10 years, by equal instalments of £3,925.
 (C) The present value of £4,300 for 10 years is £33,200; but it is assumed in the calculation that all the land is sold, whereas 34,000 acres have yet to be sold.
