E.—1.

TEACHERS.—The number of teachers at the end of the year was 38, consisting of—Males: 19 teachers and 2 assistants. Females: 6 teachers, 7 assistants, and 4 pupil-teachers. The total increase of staff on the previous year is 6.

SCHOLARSHIPS.—Marlborough has two scholarships at the Nelson College, tenable for two years. They were held in 1882 by James O'Leary and Horace Douslin. The term of the former expired on the 31st December, and the scholarship was taken up by Frank Hodson, of the Blenheim School, who was the successful competitor for the year.

BUILDINGS.—The school-buildings of Picton and Havelock had been for some time much dilapidated through age. They were also very inconvenient, and the accommodation generally so inferior as to seriously interfere with the progress of the schools. The Board therefore at the latter end of 1881 determined that, as soon as ever the funds would permit, these places should be supplied with new buildings. During the year a new school site has been purchased in Picton, and a really substantial school built, capable of accommodating the whole of the children of the borough for some time to come. This work, together with the repairs and improvements of school-buildings and teachers' residences elsewhere, more than exhausted the Building Fund Account for the time; but, in anticipation of further supplies, the Board, before the close of the year, had already let a contract for the building of a good school in Havelock.

EXPENDITURE.—The year commenced with a balance to credit of £174 0s. 10d. on Building Account, and £444 1s. on General Account, making a total of £618 1s. 10d. The year however has terminated with a balance to credit of General Account only, the amount being £547 18s. 4d., showing the slight expenditure in excess of income on total account of £70 3s. 6d.

The balance-sheet and all the usual returns have already been forwarded.

I have, &c.,

The Hon. the Minister of Education.

A. P. SEYMOUR, Chairman.
