## NELSON COLLEGE.

## 1. Report of the Governors.

THE Governors, in publishing the accounts of both colleges for the year just ended, have little to add to what may be learned from them in conjunction with the comparative return of the number of pupils upon the rolls during the last and preceding year, and the tabular statements of the number, yearly value, and tenure of the scholarships attached to each college.

The number of pupils attending the Boys' College fell off to some extent, it will be seen, during the earlier quarters of the year, but the return for the last quarter shows a number exactly corresponding with the roll for the same period in the previous year.

The roll of the Girls' College shows a somewhat marked decrease in the numbers for the latter

quarters; but the decrease is owing, the Governors believe, to then existing circumstances of quite a

temporary character.

At the close of the September quarter the Governors accepted with much regret the resignation of Miss Lilian Edger, the Second Mistress. They also, about the same time, lost the valuable services of the Matron, Miss Bell. The vacancies thus occurring have been filled up by the appointment of Miss C. E. M. Harrison, B.A., as an assistant teacher, and of Mrs. Joseph Mirams as Lady Matron.

The reputation of the College, the Governors are glad to be able to report, has been fully main-

tained at the late Civil Service Examination.

The accounts appended to this report show that the finances of the College are in a satisfactory condition, and the Governors do not feel that any comment upon them is required on their part.

By order of the Council of Governors.

OSWALD CURTIS, Secretary.
