Dec. 19 ...	Printing	Driving-belts leading through the floor and the machine.
Dec. 30 ...	Steam-lift... ..	Safety-gear to be fitted.

RETURN of ACCIDENTS to LIFE and LIMB which have occurred in connection with LAND BOILERS and MACHINERY in the AUCKLAND DISTRICT during the Financial Year ended the 31st March, 1885.

Name and Address of Owner.	Description of Machinery.	Name of Person injured.	Nature of Accident.	Fatal or not.	Cause of Accident, and Remarks.
Messrs. Bycroft and Co., Auckland	Flour-mill ..	Edward Campbell	Arm broken in two places, and one rib broken, 19th May	Not ..	Was employed as a fireman. It appears one of the belts wrapped round the shaft. When attempting to unwrap it in motion, instead of stopping the engine, as the instructions were, he got entangled with it, and was swung round with the revolving shaft.
Mr. B. Kean, Auckland	Brick and tile works	Alfred Bowden, aged 14 years	Left hand crushed, 8th July	Not ..	It appears he was near the brick-making machine, when he slipped on a piece of wet clay; in falling he threw out his hands to save himself; the left hand was drawn in between the guard and pinion, and badly crushed, which necessitated amputation. The machine is guarded as far as practicable.
Mr. H. Coupland, Auckland.	Firewood-cutting	Michael McNamee, aged 24 years	Right arm cut off, the left nearly severed, 16th July	Fatal	It appears he got up on the circular-saw bench to get down a piece of sacking to use as an apron, when, owing to it being wet and slippery, he accidentally fell backward against the saw, which took off the right arm and nearly severed the left. The unfortunate man died shortly afterwards. He ought to have stopped the saw before getting on the bench. At the inquest a verdict of accidental death was returned.
