NAPIER HIGH SCHOOL.

1. Report of the Board.

The Governors of Napier High School have the honour to report, for the information of the Hon. the Minister of Education, that the Boys' and Girls' High Schools under their care have had a fairly prosperous year. During the last term of the year the former had an average attendance of ninety-one pupils, and the latter had seventy-three. Owing to the increased number of pupils, the Governors required to add to the accommodation and to the teaching staff in both schools. The Inspector-General of Schools visited them both in September, and reported on them as exhibiting fairly satisfactory work. Professors Shand and Sale examined both of the schools in December, and gave detailed statements of their condition. Copies of these reports are enclosed, as well as those of the Headmaster and Headmistress of the boys' and girls' schools respectively,

I have, &c.,
