REPORT OF THE EXTENSION OF COMMERCE COMMITTEE ON THE FROZEN-MEAT INDUSTRY.

THE Extension of Commerce Committee have the honour to report,—

1. That they cordially indorse the resolution (annexed hereto) passed by the conference of delegates of the frozen-meat industry, forwarded by the Canterbury Agricultural and Pastoral Association, recommending the erection of cold-stores at the London docks, and urge upon the Government to place, if necessary, an increased vote on the estimates for the purpose.

2. That they deem it desirable that efficient Government inspection for health should be held on all meat frozen for export.

3. That they do not see their way to recommend the inspection of vessels.

4. That they recommend that the Right Hon. the Premier be requested to write to the Right Hon. the Secretary of State for the Colonies, pointing out the injustice done to New Zealand meat-producers by the sale of mutton from the Argentine Republic and other countries as New Zealand mutton, and urging that, in the event of legislation for the regulation of the sale of foreign meat being introduced into the Imperial Legislature, the interests of New Zealand producers be protected.
