

(c) Works expenditure on buildings, &c., which are carried out by the Works Department for the three Armed Services is shown as a separate subdivision of vote "Maintenance of Public Works and Services." This expenditure is not now being recouped from the votes of the Services as previously, thus obviating double appropriation.

3. War Expenses Account has been closed, and expenditure previously met from that account is now provided in the relative votes out of the Consolidated Fund. The votes mainly affected are vote "Rehabilitation," vote "Navy," vote "Army," and vote "Air."
