Owing to the very dry season, the trees lined out have not made very much growth, but the seedlings have done exceedingly well. The species grown in this district are very few in number, consequent on the extreme climatic conditions prevailing, and, although a very large variety of trees has been experimented with, those entirely suitable for the locality are the species enumerated on schedules attached. The number of trees lined out was 431,700, at an average cost of 28. 10³/₄d. per thousand.

The number of trees sent to nurseries and Government plantations was 279,125, their total value being £872 8s. 6d. The number of trees sent out to date amounts to 1,301,687, their total value being £3,862 0s. 11d.

The number of trees in the nursery at the 31st March was 1,105,640, and their value £1,757 5s. 4d.

The details of above will be found on Schedules 1 to 4.

During the year all buildings have been painted, and all tools, implements, &c., have been kept in good repair.

Another foal has been reared during the year, and it is valued at £10.

The average number of hands employed was 5.64.

The following is a record of the rainfall and temperature for the year :---

| Month. | | Rainfall. | Number of Days Rain fell. | Maximum Tempera- ture. | , Date. | Minimum Tempera- ture. | Date. | Number of Days on which Frost occurred. |
