NOTE.—No information is available for 1900 and 1903, as the original entries have by now all been destroyed. The total importations for these periods, obtained from the statistics published yearly, appended hereto. Further, no information regarding sizes of timber can be obtained from our figures, as we receive them in quantity only in superficial feet. Also, returns of staves are not kept separately, and figures for these are not available.

RICHARD CARTER,
Secretary and Inspector.
