NATIVE LAND COURTS AND MAORI LAND BOARDS

(REPORT FROM THE UNDER-SECRETARY, NATIVE AFFAIRS, ON THE WORKING OF THE)
FOR THE YEAR ENDING 31st MARCH, 1911.

Laid on the Table of the House of Representatives by Leave.

ANNUAL REPORT.

The Hon. the Native Minister.

Native Department, 25th May, 1911.

I HAVE the honour to append hereunder a report upon the work of the various branches affecting Native lands and Natives generally.

NATIVE LAND COURT.

The work of the Native Land Court shows a marked increase in comparison with that of the last financial period. A total of 22,343 cases, as against 9,055, were scheduled for hearing, the number of *Gazette* notices totalling 94. To deal with this enormous amount of work the Court held sittings in 46 different localities, only very few cases being what are termed "old claims." The large increase in business is no doubt due to the advantages of the present law; and the system of circuits inaugurated on the coming into operation of the Native Land Act, 1909, has no doubt been the means of enabling the Courts to deal with such an unprecedented and large volume of work. During the period under review the Courts investigated the ownership of a total area of 186,679½ acres, hitherto unclothed with a title, and has also dealt with 833 partitions affecting an aggregate area of 503,829 acres.

The Native Appellate Court has also been kept very busy, having had to deal with a total number of 471 cases.

Table A attached hereto sets out in detail the operations of the Courts.

During the year the judicial strength of the Native Land Court Bench was increased by the appointment of another Judge (Mr. T. H. Wilson).

The revenue derived per medium of Court fees, &c., payable to, received, and outstanding for the financial year ended 31st March, 1911, amounted to the record sum of £6,834 18s. 11d.

A very large amount of work is done for other Government Departments, for which no credit has been allowed in the sum mentioned.

During March a conference of Judges of the Native Land Court was held in Wellington, when matters affecting the working of the Native Land Act, 1909, were discussed, and a schedule of sittings of the Courts arranged for the ensuing year. The conference will no doubt be of value not only to the Judges, but also to the Department.

MAORI LAND BOARDS.

The Boards have also been very busy, and are doing a large volume of business in respect to the revision and confirmation of private alienations, and the administration of a considerable area of trust lands.

During the period some 435 leases were approved by the Boards, of a total area of 116,498 acres; 660 transfers, comprising 78,346 acres, were consented to. The aggregate area of lands administered by the Boards totals 975,010 acres; of this area the Boards have issued 422 leases, of a total area of 282,402 acres, and 24 transfers, comprising 6,008 acres. Schemes for cutting up, roading, surveying, &c., of the remaining areas are now under consideration, and in several cases complete and only waiting final approval.

Settlement of the greater area is hung up for want of surveys, and, although all the surveyors available are engaged, they are unable to cope with the demands made. Until surveys have been made it is impossible to comply with the provisions of the statutes and place the lands on the market.

It is interesting to note that, for the first six months or more, practically no application was received to call a meeting of assembled owners to consider a proposed alienation. Now, however, the provision is better known, and the areas shown in the table as being dealt with under Part XVIII were nearly all dealt with in the last half-year. It may be confidently assumed that that area will be trebled when the returns for 1911-12 come to be prepared.

The Boards' revenues may be considered as self-supporting. They are now doing very good work, and facilitating settlement to a large extent, especially when one considers the advantages obtainable through the provisions of assembled owners' meetings.

To quote figures, I may state the six Boards received on account of rents and land-purchase moneys, for the year ending 31st March last, a sum of £193,758 14s. 5d., made up as under:—

<i>Rents and Purchase-moneys, Fees, &c.</i>						£	s.	d.
Ikaroa	98,074	10	0
Aotea	35,991	14	4
Waikato-Maniapoto	35,382	9	0
Tairāwhiti	11,442	8	11
Tekeāru	9,311	19	0
Waiairiki	3,555	13	2
Total						£193,758	14	5

It goes without question that when sums as shown are handled, some actual business must be transacted.

Table B attached hereto sets out in detail the operations of the Boards.

The revenue derived per medium of fees received and outstanding for the financial period ended the 31st March, 1911, amounted to £3,469 18s. 6d.

In connection with the work of the Boards, it must be remembered that they deal with a fair number of applications for meetings of assembled owners on behalf of the Native Land Purchase Board, for which they do not receive any fee, neither are they credited with the amount by way of transfer vouchers. In this connection, if fees were paid according to schedule, the sum of £132 would have been credited during the financial period just ended.

NATIVE-LAND PURCHASES.

The purchase of Native lands has gone on apace. The Native Land Purchase Board, as constituted by section 361 of the Native Land Act, 1909, has been busy considering and dealing with numerous offers, aggregating 902,074 acres. During the period the Board held twelve meetings. The purchase of 75,437 acres has been completed, while some 430,560 acres are in course of completion.

Table C shows in detail the operations of the Native Land Purchase Board.

SURVEYS OF NATIVE LANDS.

As pointed out in previous reports, survey controls and is the crux of the whole position. If it were possible for the Survey Department to keep abreast of the demands made upon it for the survey of Native lands, the Native Department would then be in the position to place a very large area of land for settlement on the market.

At the present time it is understood that surveyors are engaged in the survey of some 603,383 acres of Native land scattered over the Dominion, for the purpose of completing Native Land Court orders and cutting up lands for leasing by the various Maori Land Boards.

NATIVE INTERPRETERS.

The provisions of the Native Land Act, 1909, and the regulations have been the means of increasing the number of applicants to be examined for a license of the first grade. During the period twenty-two first-grade and nine second-grade licenses were granted. The total fees collected under this head and paid into the Consolidated Fund amounted to £92 5s. for the financial year ending 31st March, 1911.

MAORI COUNCILS.

The position of the Maori Councils (Health) Act requires attention—in fact, needs consolidating. If this is not done, then I think, from the point of view of health, it is advisable that the working of these Councils should be carried out under the jurisdiction of the Department of Public Health. They, now having charge of Native medical matters generally, could take up the work by the bringing of section 68, Public Health Act, 1908, into operation.

Special District and Health Committees under that section could be set up on the lines of districts and Councils as now existing, which would allow of the necessary proceedings being carried out, and would perhaps, from the position of health, be more satisfactory, as being under the direct control of the officers of the Public Health Department.

MAORI HEALTH.

I regret to report that outbreaks of typhoid among Natives have been somewhat serious, notably in Waiaapu, Gisborne, Kaipara, Kawhia, and Rotorua (Te Puke) districts. Typhoid, being an infectious disease, is under the control of the Department of Public Health. In every case, however, the Native Department has rendered assistance financially and offered the services of Dr. Pomare and Nurses Hei and Whangapirita.

It is my painful duty to record the death of Nurse Hei, who contracted typhoid whilst nursing at Gisborne. The deceased was a very able and conscientious nurse, and her loss is greatly regretted by the Department and all members of the Native race.

Nurse Whangapirita was also attacked by typhoid, contracted whilst nursing at Te Puke, but I am glad to report that she has recovered. She has, however, since resigned.

Upon the outbreak at Waiapu being reported Nurse McElligot was engaged by the Department and ordered to proceed to Waipiro Bay and take charge of the patients. A temporary hospital was erected, and Nurse Whangapirita, who resides in the vicinity, kindly volunteered to assist in nursing, and her services were gratefully accepted. The outbreaks in most cases were overcome, and, although several deaths occurred, the majority recovered. Every attention has been given by Dr. Pomare, and his excellent work in the direction of coping with and overcoming these epidemics has proved satisfactory.

Cabinet has decided, owing to the fact that infectious diseases must be dealt with by the Department of Public Health, that it would be perhaps more effective if the control of all health matters were placed under one Department. Accordingly, the Maori Health Branch will for the future be administered by the Health Department, commencing from the 1st April, 1911.

The sums of £3,000 from the Civil List, together with £600 voted on the estimates, have accordingly been transferred to the Department of Public Health.

MAORI CENSUS.

The Maori census and agricultural statistics were taken during the second week of March. All the returns have not yet been completed, but from the information to hand the indications point to an increase of approximately 2,000 persons since the last census. This may be mainly attributed to the greater care observed by the enumerators. A special report, however, will be submitted in due course.

GENERAL.

A study of the schedules attached will, I think, satisfy the pessimists that the Native Department is doing all it possibly can towards the settlement of Native lands. The Act of 1909 is, no doubt, the contributing factor; and when all its provisions are more universally known, and the parties concerned take the necessary initial steps, the cry of "unoccupied Native lands" will be a thing of the past. At the present rate of progress it may be assumed that after eight years there will be little, if any, Native land that is not revenue-producing.

THOS. W. FISHER,
Under-Secretary.
