ANNUAL REPORTS OF DOMAIN BOARDS.

The UNDER-SECRETARY FOR LANDS to the Right Hon. the MINISTER OF LANDS.

SIR,—

Department of Lands and Survey, Wellington, 1914.

I have the honour to transmit herewith a synopsis of the annual reports of the Domain Boards for the year ended 31st December, 1913, which have been furnished in accordance with section 45 of the Public Reserves and Domains Act, 1913.

The domains are administered by local Boards for the benefit of the public, and it is gratifying to note from the reports received that the keen interest in the reserves reported by my predecessor last year is being maintained in the majority of cases, and that the areas are generally being gradually improved for the purposes of recreation, and embellished where necessary by plantations of trees and shrubs, while native bush and scenery is being conserved.

It is within and near the centres of population that domains show most improvement, and where the public appreciation of these important reserves is made more evident. Where little or no progress is made it is owing to lack of funds, or to the fact that the domains are situated in thinly populated districts and are not yet urgently required for purposes of recreation.

The wisdom of setting aside these reserves in advance of settlement is apparent, as otherwise when the population arrives the natural desire of our youth for outdoor games and recreation compels the acquisition of suitable areas at often excessive cost.

There are at the present time 547 domains, comprising 83,494 acres. Eighteen new domains were constituted during the year. The reservation over Manuherikia Domain, Otago Land District, containing 97 acres, was removed by section 82 of the Reserves and other Lands Disposal and Public Bodies Empowering Act, 1913, and the area declared Crown land. Waiopahu Domain, near Levin, containing 16½ acres, was converted into a scenic reserve under the Scenery Preservation Act, 1908.

The Boards controlling the undermentioned domains have failed to report, and inquiries are being made as to the cause of default.
