## REPORTS.

No. 203.—Petition of N. ATKINSON and 1,378 Others, of Wellington.

PRAYING that the Imperial system of dress-cutting may be used in the technical and high schools of the Dominion.

I am directed to report that the Committee is of opinion the evidence given demonstrates that charts are not educative, but rather of utilitarian value, and, as charts are not excluded from secondary and technical schools in Victoria, their use should be made optional in the technical and secondary schools of the Dominion. The Committee strongly recommends that Miss Roberts should be given an opportunity of proving her confidence in her own scheme and its value by being placed in charge of a class for a period of six months.
