NOTES.—(a) No charge for the cost of exchange on interest payments made in London is included. (b) Owing to the interconnection of the undertakings in the North Island it has not been found practicable to show separately the accounts of the various schemes as required by the State Supply of Electrical Energy Act, 1917.

T. A. Barrow, A.R.A.N.Z., Accountant, Public Works Department.

I hereby certify that the General Balance-sheet has been duly compared with the relative books and documents submitted for audit, and correctly states the position as 1. To avoid delay, the accounts of the Mangahao-Waikaremoana scheme, the audit of which has not been completed by the local Audit Inspector, have been accepted from disclosed thereby, subject to the departmental notes enfaced thereon. The following comments are appended:--

the Department's records.

2. The agreement with the Wellington City Council for the supply of electricity from Mangahao expired on 30th September, 1935, and the terms of a new agreement have not yet been settled. The accounts as presented include the amount charged for the supply for the balance of the year calculated at an increased rate, but the City Council has paid for this period at the previous rate and disputes liability for the balance of £17,705 3s. 4d. F. C. CAMPBELL, Controller and Auditor-General.
