EXTRACT FROM THE MINUTES OF THE PROCEEDINGS OF THE  
PROVINCIAL COUNCIL.

THURSDAY, 2nd February 1854.

Resolved—

That it is the opinion of this Council that with a view to the harmonious working of the New Constitution, it is very desirable that the powers of the Provincial Councils be enlarged, so as to enable them to legislate finally upon all subjects affecting the local interests of the respective Provinces. And that the action of the General Assembly be confined to such matters as affect the interests of these islands taken as a whole.

That this Council desires to express its full confidence that the General Assembly will in exercise of the powers vested in them by the Constitution Act, adopt such measures to amend the Constitution as may, when approved of by Her Majesty confer upon the Provincial Legislatures the complete and effectual control of the affairs of their respective Provinces.

That in the opinion of this Council the management of the Public Lands of the Province, the price and terms of sale or lease, and all other matters relating thereto, are local and not general interests, and as such ought to be entrusted to the Provincial Legislatures.

That recognising the late Regulations for the sale of land as a boon, this Council is of opinion that any legislation tending to raise the price of the public lands would be highly injurious to the interests of the Province, and adverse to the earnest wishes of the community.

That these resolutions be communicated through His Honour the Superintendent to the Officer administering the Government, with a request that His Excellency will be pleased to lay them before the General Assembly, together with a Bill embodying the principles contained in them.

True extract,

(Signed) T. H. BARTLEY,  
Speaker.
