

Announcing a Superb Book for all Bird Lovers

Following in the tradition of those great New Zealand naturalists H. Guthrie-Smith and Edgar Stead, M. F. Soper gives us a blend of life-history information, and field notes on little-known and common species, together with an accurate impression of the present bird life of our country.

M. F. SOPER
Noted New Zealand
Naturalist

It will have an immediate appeal to every bird lover. Through photographs and descriptive text, a wealth of valuable information is brought together about the appearance, characteristics, and behaviour of a wide variety of New Zealand birds. The author may be regarded as the finest photographer of birds in this country, a man whose work and research have been acclaimed far and wide.

The result of his patience, care, and enthusiasm can be seen in the well-nigh perfect pictures which appear in this book, a book that has won unstinted praise from reviewers and from bird lovers throughout the country.
