

Guard your children

against the weakness, which so often grips the little ones before their parents are aware of it, by keeping them nourished and strengthened by regular courses of SCOTT'S Emulsion.

**PROVED THE BEST
builder up of weakly babies
and delicate children—and
the best protector against
lung trouble and epidemic
diseases.**

Children, who have been nourished by SCOTT'S Emulsion, thrive better and grow more sturdily than children who have not.

Prematurely born babies need it every day. Teething infants grow strong on it. Growing boys and girls become healthier and stronger with each dose they take. Try it to-day.

*Always see this trade
mark on the package—
none genuine without it.*

Buy "SCOTT'S," mean "SCOTT'S" and get
