

*"Ovaltine will soon
restore your Health"*

*for Convalescents
and Invalids*

THE high food value of "Ovaltine," combined with its attractive flavour and ease of assimilation, makes this delicious food beverage invaluable during and after illness.

No other form of nourishment possesses such invigorating and sustaining power as "Ovaltine." It is a concentration of the nutritive principles of ripe barley malt, rich creamy milk and eggs—with a cocoa flavouring. One cup of "Ovaltine" has the food value of three eggs. It is a complete food—supplying nourishment for every tissue of the body and promoting general nutritional welfare.

Patients do not tire of "Ovaltine" as they do with the routine egg and milk diet or insipid foods. It is well borne even in cases of impaired digestion or other alimentary trouble.

The value of "Ovaltine" for maintaining and building up health and vitality in illness and convalescence is recognised in all important Hospitals, Sanatoria and Nursing Homes.
