

## Light Stockings

**L**IGHT stockings are just the thing, but they must be absolutely immaculate, close-fitting and without a crease. Diaphanous hose appeal to every truly feminine mind, but there is always the problem—how will they wash?

Keep your silk stockings lovely with LUX, and wash them very frequently. The lighter and daintier they are, the easier it is to wash them with LUX. You will find silk stockings lose none of their sheen, but retain the pearly transparency which is so attractive; neither will they lose their shape by stretching or shrinking. LUX costs a little more than soap, but saves its cost many times over. Buy LUX in the big new packet, and use it for all your fine laundering. Lever Brothers (New Zealand) Limited.
