Fr. ought to best fiborita on Wangson's form. Strand Rapide, T.12, is a berse for whom the bandleapers seem to here the greatest respect, but he has yet to show that it is quite deserved. Melodeon, 7-11, is one of the genulus stayers engaged, and although he has received all he is entitled to should be equal to making a good light for winding bounds. Regulation, 5-8, has evidently been treated as a non-stayer, but she is a fairly brilliant mare, and cannot be possed by Behity at the weights. But the performances in Australia were but of sufficiently high class to recommend him for a race of this description. Protomorphism may show something in the interval to throw some light on his abilities. Shrapell, 16, is a very brilliant horse, who magging the fourney, but I have more fancy for Full Cry, who has three pounds less and may run well forward. General Systems, 7-2, who may not stand, and theka, through the protome and probably fooder Kuight, and obbidioem, 5-2, are a quartette of three year-olds from whom something brilliant horse, the class come and probably fooder. Kuight will prove the best. Black Reymard, 7-2, and Onewa 6.11, have yet to show that they are quite class comes by a race of this discription. Zettand, 0.11, is a coli who is well spacken of and may ten out useful the class comes by a race of this discription. Zettand, 0.11, is a coli who is well spacken of and may ten out useful the class comes for a race of this discription. Zettand, 0.11, is a roll will like Achilles, Craiffern, Colvey, Lady Lillian, Halberder, Romeo, Melodeon, Kegulston, Golden Knight, and General Average as those the winner may likely come iron.
