Reliman, who raced so well at Takapina on the opening day, must be put down as one of the most surprising of equina timber jumpers. He has pulled up very land out least five occasions to my knowledge, apparently broken down, and not expected to see the post again, but he comes up milling all regular intervals, and it is doubtful whether he was ever very much better than on Saturday last.

After Loch Lomond's faulty jumping on the opening day of the Takapaim Jockey Unit's meeting, which resulted in the death of his rider, A. Butter, he did not sind many supporters for the hardle race on the sec-and day, which we won, paying the good price of £10 and in a firld of six. Loch Lomond's displicy of jumping, bettli in the Hurdles and Steephednac, was perfect.

This was very annoying to Major Lodor. The heat of horsemen everywhere make mistraters; we find this the case is New Zealand.

Writing from Ireland aneut the defeat of Pretty Polly, the correspondent of the "Sportaman" says:—"For Freity Polly defeat I can find no excuse. The mare looked and went well. I have seen it stated that Maker on Pretty Polly and M. Conton on Zinfandel should have gone after Freett II, sooner. I liad they done so, I do not believe that the result would have been different. Dustriess the going, which was holding, was ognisst Freety Polly and in favour of the whner, who is a much better horse than most people give him credit for. It is said that those closely connected with Freeto II, landed a good stake. It is ktrained by Lawrence at Malsons-Ladiste."

The fact that a couple of gentlemen held opposite ideas as to the age in which a horse develops his best pace brought about an interesting match last month in chiego. Mr Williams held to the theory that thoroughbreds are raced too carly. He is working on this ideas, and has saved a number for racing purposes. These are not reced until after they are four years old. A Mr Sydiery loget is of just the opposite opinion. He believes in early two year old racing. The argument became so strong that it ended in a match below made between a four year old and a maiden. 2 year old to gallop over three furions for 250M assisted to where up, the whomer to take both horses. The match around a lot of interest, but it was a poor contrest, as the two years old wan easily. This is only what I should expect the youngster would be the county of the cou

The Middle Park Plate was first run in 1888, and has been won by anny horses of note, including Melton. Minting, Donoron, Olme, Isbiglass, Ladas, St. Frisquin, Galtew More, and Pretty Polly. Tardy's sire won the Drrby sind, other classels in 1858, and his dam, Airs and Graces, captured the Oaks in the previous year. She was purchased by M. E. Biner for 3000 guincars, while for Plying Fox the French waner bid up to 37,300 guincars. Both hare well repeald him. Not since 1859 had a French horse carried off the Middle Park well repeal him. Not since 1859 had a French horse carried off the Middle Park well repeal him. And since 1859 had a French horse carried off the Middle Park by J. Woodburn, and thus run. History is the part of the Middle Park by J. Woodburn, and there were again nine starters. It was in the corresponding race in 1888 that Caimen (Skismi up) defected Jardy's famous sire, Flying Fox, ridden by M. Cannon, by a length and half, the pair ising equal favourites at 7 to 4, and nine faced the starter.

Robert le Diahie achieved a great performance lu winning the Duke of York Stoken. He gave weight away to all his lifteen opponents, and to several of them hearly one-third of his impost. To Fermayle, who followed him home, he conceded 23th, and to the third. Flower Beller, 12th. Free buckers looked far beyond the son of Ayrshire (writes the "Nportsman") for the winner. "Robert" had previously won the City and Bubrrhan and boncaster Cup this essaon, in addition to other races ones importance and is proviously won the City and Bubrrhan and boncaster Cup this essaon, in addition to the races of the province and a province field of sixteen was one more than did duty a year ago. when Recepter scored, and it was Maber's first success in this event, in the canter down, Fermoyle, Plantace, and Antonio went best, and of these the first two were prominent, almost from the fail of the flag, their colours being difficult to distinguish from one snother. They stayed right in front for a long way, and rounded the head together, but Maher had got Robert le Diable nicely placed on the lawide, and it was quickly seen that the top-weight was master of the situation, Flower, and the province of the situation, flower and the province of the situation of the strength was master of the situation.
