When the last mall laft Engined Integrals attill hydred the list of successful stallons, his representatives having won \$20,000. Gaillantia was a close second with \$20,000, while those whose stock bare won over five figures were:—Cylfect \$21,812,100, presistance, \$215,100, for the list of windless of the light of the list of windless of the light of the list of windless of the list of th

A. S. Joel has leased Bill of Portland to W. T. Robinson, and this very successful son of St. Sincow with (writes the Special Commissioner of the "Sportsman") stand in future at the Foxbill Stud. Bill of Portland to longer depends solely on the stand in future at the Foxbill Stud. Bill of Fortland to longer depends solely on the stand of the stand of

of that very good little Treaton mare Cinder Ellien.

There is some interesting information in the latest volume of the Stud Book published by the Measure Weatherby. It is the twentieth, and appears after a four years interval. Reviewing the publication, the "Field" remarks that, from the musil analysis, in taiwlated form, it will be observed that in 1801, 801, sances were occusated for; in 1802, 6003; to 1803, 5768; mails with the second, 1804 in the third, and 1272 in the fourth, and it may be added that the second, 1804 in the third, and 1272 in the fourth, and it may be added that the fourty years total of foals renches 18,188. A desirable suprovement, from a convenience point of view, is ther inclusion of Irish mures amongst the general body of the hook, they having been hitherthe at the end of the entries. The section devoced to Araba, though limited in extent, is very increasing reading, whilst under the heading of Horars sent Abroad," the bulk appear to have gone to the United States, and on the Conlinent Awestra and Hungary, Regium, France, Italy, and Germany, especially the latter, figure largely. It is also a healthy sign to see so long a list with the interval of the section of the control of the section of the control of the control

The Worga scribe "Tim Whister" reports that the well-known street sunrise died at the filter well-known street sunrise died at the filter Pines Stud Farm, near Jerthereit, on Norther 13. The old fellow was rolling when ris. The old fellow was rolling when ris. The old fellow was rolling when ris. The old fellow was rolling when ris Scrime to the erack New Zealander Scrime to the stage. He was therefore 25 years of age. He was by Rollinson (Trusos from Simaline, by Maribysuong from Nightlight (imp.), by Archy from Kinshight, by Bay Middleton from Torch, by Lamplighter Similas was never raced, owing to meeting with an accident as a youngster, but he was a wonderful success at the stad, and it may be fairly chained for him that his procepy have won more races than those Australian and the season of the monals of the winning street of the the stade of the Winnings of his procepy during his did continued to the winning street of the winnings of his procepy was shroulded in the winnings of his procepy was shrouled in doubt. In addition to siring good winners on the fat, only the state of the state

writing of Sr. Amani's sesurrection as a raceboxes, an English arribe is interestingly reminiscent of largest of whome sent and are recorded:—"Rt. Amanib act has been duly recognised by the historians of the Jockey Club Stakes. But I have seen no mention of the sid coincidence that the Chattis Hill blackmith who accompanied the 'ssint' and his felius pet to Newmarket was named Dick Whittington. Cais have acted as a actative to many horse before 8t. Amant. Charles the Twelfth, the St. Leger winner of 1839, we are told, had a great affection for a grey stable cat, and if she were not waiting to welcome him on his estern he manifage to the most violent displeasure. When a street with the cat, who was fetched and out with the cat, who was a sea a neigh of antispection. Best Man was also streeted to a fellow coupanion, and when, after winning the Frize

du Coaseil Municipal, he got back from France without her—she was inst on the way—he was quite sorrowful about it for days afrarwards." The writer could have gone further and rere ided an extraordinary instance of affection that existed between the Godolphia Ret—head of the once great Matchen line—and a cat. It is stated in bistory that the Godolphia recidents if a faithful feline with the control of the stated in the low past by pritting assorted cats to risk low, but he displayed unswerting loyally to the past by pritting assorted cats to his low, but he displayed unswerting loyally to the past by pritting assorted cats to his low, but he displayed unswerting loyally to the apart of one by savejing every puss his attendant brought to him. Dungamen, he famous carer in the last quarter of the eighteenth century, and anheaquenity a notable station scarer in the last quarter of the within the station of a strong liking for a lamb, who occupied the same box with him till it became very tough muttou; and Birdentcher's particular weakness was as one of the great Cossack, and his weakness was an unfavoured and decidely ameliful he-goat. This horse was something of a min-eater, but as long as the coating of a min-eater, but as long as the coating of a min-eater, but as long as the coating of a min-eater, but as long as the coating of a min-eater, but as long as the coating of a min-eater, but as long as the coating of a min-eater, but as long as the work—he of the stallion paidock, he won't he bodd mas wan would attempt to britle of the stallion paidock, he won't he bodd mas wan would attempt to britle of making reministions rold on the

the grass was green contains the boundary of the stallion pandoors, he won't be sold man who would attempt to bridle or halter Cowack.

Hays an exchange: For many years the practice of making wominations rold on the death of the boundary of the had versations results of making wominations rold on the death of the boundary of the had versations as bethy favourity files and the death of their studies as bethy favourity files and proposed to the death of their naminator than been depreciated through their being put out of all their studies engagements. St. Simon was a case in point. He could not run it any of the "classics," and the Duke of Portland got him cheep in conacquence. The stewards do not propose to go the whole bog and eliminate the rule, but they propose to exempt from its operation "entries for horses and as yearing or fonis during the life of the nominator, or such as acc unda under auther's person's abscription." Commenting on this proposal the editor of horses and as yearing or fonis during the life of the nominator, or such as acc unda under auther's person's abscription." Commenting on this proposal the editor of horses whose was such as a considerable relief to buyers of high class yearings, who may under present circumstances find haif the value knocked off by their engagements being rendered void; but I fail to see why yearings and fonis only should be brought within the operation of the proposal. Why not older horses, too? Then, again, no relief will be extended to the case of horses whose nominator dies, and whose entirts really constituted the principal part of their radic. It seems to me that a very simple way out of the whole difficulty is to give nominators the option of paying the surfay monday end other portions of the siaks as they fail due, and in that case of horses whose nominator dies, and whose entirts really constituted the principal part of their radic. It seems to me that a very simple way out of the whole difficulty is to give nominators the option of paying the surfay of the

augestion finds farour it should not be tong before it goes altogether.

Despite fashion find throny, there is some underlying control which from time to time forces ecretain lines of the fire forces ecretain lines of the fire forces events in the fire forces events. However, the fire fire forces events in the part of breeders. Distant Shore was a member of No. 9 family, noteofons for its inshibitive to produce good stallions. Indeed, Cyliene is the first horse of this family to sire a Derby winner since 1908, and no classic whoner at all had been aired by any such horse sluce 1818, when Alliadora, by lifek Audrews, 9, wois there and the first horse of this family to sire a Derby winner since 1908, and no classic whoner sluce 1818, when Alliadora, by lifek Audrews, 9, wois here and the first proved here and first here is the sound for the law of the first proved here and first here are all the sound first here are all the said first here is the first proved in the control of the first here is the first here are the first here are the first here are the first here are the first here is the first here are all the first here are a persistent development of No. 7 blood, first as winners, and now as stress. Persistence and the first here are and the first here are all the first here are and now as stress. Persistence and wildflower lent strenges assistance. It is to be observed, too, that these great winners are not une to any single great winners are not une to any s

and Wildfowier both descended from the last-named of those marre. For Vacquire (dam of Flying Fox) is a grandaughter of arcasan, by Bresdailane out of Jeu d'Esprit, while Tragedy, the dam of Wildfowier, is a grandaughter of Jeu des Mois, by King Tom out of Jeu d'Esprit, it is a little curious that both Flying Fox and Wildfowier freshould have promiunent representatives from the forthcuming St. Leger in Vai d'Or, Jardy, and Lianghby, who will be opposed by Cicero, son of a No. 9 sire. All that three sires are young horses, Flying Fox being only nine years old, though he has four-sires are young horses. Flying Fox being only nine years old, though he has four-resonblament in Polityres of Flying Fox and Wildfowier, and both are strong in the Flying Dutchens (wive) have one through Husshilsen, while although of the Highland Masshilsen, while although of the horses in the combines skirmisher (son of Yor) (Jecur) with Sweetmest; and Lianghly the same Skirmisher blood through his great practice, sister, the legents in the same Skirmisher blood through his great granddom, sister to Ryshworth. Indeed, he is inheed, as was Sirenia, his three-parts shot the top just now, and it only remains there is a gainty of outside blood surging to the top just now, and it only remains for Val d'Or to give No. 20 family its distribute in a gainty of outside blood surging to the top just now, and it only remains the sider, to the branch of No. 19 family which produced Guilloule. Thus it appears that these is a gainty of outside blood surging to the top just now, and it only remains the sider, to the produced of Skirmisher should be surging to the top just now, and it only remains the sider, to the branch of No. 19 family which produced Guilloule. Thus it appears that these is a gainty of outside blood surging to the top just now, and it only remains the sider, to the produced for the sider of the sider.

for Val d'Or to gire No. 20 family its disticlassic winner to inske this an aumen mirabilla in racing history.

In aliuding to the modern racing acat an English writer said: "To America, it must be confessed, we are indebted for many userful inventious and much destrable information—with a very voluminous per cortex! It is open to question whether the property of the majority of the majority of the majority of the saidle without doubt the duration of races on the flat inception is attributable, and without doubt the duration of races on the flat inception is attributable, and without doubt the duration of races on the flat inception is settibutable, and without droubt the duration of races on the flat inception is prints are now generally schieved in from two to four or five seconds less thus than was the case a decade ago, But what of that? If the forelegs of a young size could cope with five furforage in limit Sea, and Stand the strain, what is the action of the tender of t

and as it is becoming customary to adopt this cronching position from start to fitled the increased strain on the forehand the increased strain on the forehand the increased strain on the forehand the instance of the strain state of the start of the strain and the ligaments are thereby frequently and the ligaments are thereby frequently in the force the forest of throwing the burther to be carried forward is apparently to force the horse to take a longer and nutcker stride with the hind legal in order to get them well under the weight to preserve life balance; hence we get the advantage of our old enemy with the scytholond the hour-glass, and cheat him of a few seconds. But it remains to be seen whether the system is likely to result in the uttinate improvement of our noble friend the horse, or of his rider, or whether the me will in time develop the kindequarters of a kanguron, while the other, from his toe usadituous cultivation of what has been formed the monkey-on-a-stick whyle of riding, will revert to the prehistoric conformation of the ape."
