A large part of women's suffering comes from headache. No matter what the cause the cure is always found in Stearns' Headache Cure, which is tasteless, easy to take, and acts promptly.

A story is current concerning a professor who is reputed to be slightly absent-minded. The learned man had arranged to escort his wife one evening to the theatre. "I don't like the tie you have on. I wish you would go up and put on another," said his wife. The professor tranquilly obeyed. Moment after moment elapsed, until finally the impatient wife went upstairs to learn the cause of delay. In his room she found her husband undressed and getting into bed. Habit had been too much for him when he took off his tie.
