THE CREATION OF BEAUTY.

The value of VALAZE as a skin beautifier can be demonstrated by a single test. Wash your skin with warm water and the best soap obtainable. This is the every-day method, and is generally supposed to thoroughly cleanse the skin. After the washing, when your skin is apparently clean, apply a little VALAZE, Rub it in gently but firmly. In a few minutes it is absorbed. Now massage for a minute where VALAZE has been applied, and foreign matter previously buried in the pores will simply roll out. roll out.

This is a very simple test, but is an effective one.

VALAZE penetrates where soap and water cannot.

Foreign matter remaining in the pores, cause spots, pimples, and black heads, with sallow muddy complexion.

The veriest novice will now understand why VALAZE makes women beautiful.

Mademoiselle Rubinstein says of VALAZE:—"It is altering the whole fare of Australasia. Women from every corner of the Columes write to me for supplies. They say VALAZE is the greatest gift money can purchase."
