THE GISBORNE ORCHESTRAL SOCIETY

is again coming to the front. Last Tuesday night the Society presented a most attractive musical programme at His Majesty's Theatre to a large and enthusiastic audience, despite the fact that tickets of admission were only available to subscribers. This Society has just started on the subscription basis, and already has close on two hundred subscribers, showing that Gisborne is not behind the times in its appreciation of good music. The enthusiasm displayed by the large audience on Tuesday must have been very gratifying to Mr. Mainland Foster, the conductor, and the indi-

FROOTOIDS

For Headache, Indigestion, Constipation, and Biliousness.

The immense number of orders for Frootoids, sent by post direct to the Proprietor, is convincing proof that the Public appreciate their spleadid curing power over the above-named complaints. They are elegant in appearance, pleasant to take, and, what is of the utmost importance, are thoroughly reliable in affording outer relief.

They are elegant in appearance, pleasant to take, and, what is of the utmost importance, are thoroughly reliable in affording quick relief.

Frootoids are immensely more valuable than an ordinary aperient, in so far that they not only act as an aperient, but de remove from the blood, tiseues, and internal organs, waste poisonous matter that is ologging them and choking the channels that lead to and from them. The beneficial effects of Frootoids are evident at ence by the disappearance of headache, the head becoming clear, and a bright, cheery sones of perfect health taking the place of sluggish, depressed feelings, by the liver acting properly, and by the food being properly digested.

Frootoids are the proper aperient medicine to take when any Congestion or Blood Poison is present, or when Congestion of the Brain or Apoplexy is present or threatening. They have been tested, and have been proved to efford quick relief in such cases when other aperients have not done any good at all. It is of the utmost importance that this should be borne in mind, for in such cases to take an ordinary aperient is to waste time and permit of a serious illness becoming fatal.

Frootoids act splendidly on the liver, and quickly cure bilious attacks that "untibilious pills" make worse. Many people have been made sick and ill by "antibilious pills" make worse. Many people have been made sick and ill by "antibilious pills" who could have been shojected to extensive tests, and have in every case proved successful in completely curing the complaints named.

The ordinary adult dose of Frootoids, of which there are 22 in a bottle, is 2 to

amed.

The ordinary adult dose of Frootolds, of which there are 72 in a bottle, is 2 to 4—more or less as required—taken, preferably at bedtime, when constipated, or at the commencement of any other disease requiring an aperient, as an auxilliary with the special medicine necessary for the case. A constipated labit of body will be completely cured if the patient will on each occasion, when suffering, take a dose of Frootoids, instead of an ordinary aperient; making the interval between the taking of each dose longer and the dose smaller. The patient thus gradually becomes independent of Aperient Medicines.
