#### RELIGIOUS WORKER'S FORTITUDE.

In Mrs Jane Booty the Salvation Army possess a soldier of more than ordinary experience and fortitude.

Mrs Booty complacently gave an account of her experiences, during the last 15 years, to a reporter who called upon her at her residence, Clapham

upon her at her residence, Clapham House, Mary Street, St. Peters, N.S.W. "In addition to being a Sergeant, I am Instructor to the Girls Class in my district," said Mrs Booty. "and attend open-air meetings in all weathers. Some years ago I became debarred from attending these meetings, however, for the cold air always brought on acute neuralgia, for my nerves were unstrung owing to the death of my husband and business worries.

Sometimes the attacks would last for 48 hours; the pains seemed to pass up my spine and clutch my head behind the ears till my brain felt as if it were heing squashed flat. Every nerve was so the rack, and I lay groaning and crying in desperation. My son would sit up and bathe my head, thus giving me is distic relief. My appetite failed, I could ack sleep properly, and I because this and pale. Through all these years the attacks same about once a week. Heart palpitation troubled me, making me quite faint, and I suffered from constipation and rheamatism in the knees, which were so weak that if I kneit down I required assistance to get up again. I tried every genedy sidvertised without effect. Several medical men, after consultation, declared my case chronic, and said they could do me no good. Noticing Dr. Williams' pink pills advertised to care neuralgia. I sent for three boxes and commenced them. The first neuralgia attack after taking them was not nearly so acute as usual, so I continued them. In a few weeks I began to gain fisch; my colour improved; my appetite returned, and I was able to sleep better. The pain first lessewd, and then gradually subsided. Now I am completely free from neuralgia. None of my clothes fit me, I am so plump and well, and for the first time in the last five years I can safely go out alone. My friends think Dr. Williams' pink pills a medicinal wonder, for they know how greatly I suffered."

Business worries and family troubles induce neuralgia, as in Sergeont.

wonder, top' they know how greatly I suffered."

Business worries and family troubles induce neuralgia, as in Sergeant. Booty's case, for they lower the system, cause the nerves to become unstrung, and produce a vitiated condition of the blood. The pain then becomes provoked by cold or damp, By restoring the nerves and enriching the blood Dr. Williams' pink pills drive neuralgia from the system. In the same way they cure rheumatism, sciutics, crysipelas, scrofula, cezema, anaemia, laddies' allments, vital losses, rickets, etc. Sold by the Dr. Williams' Medicine Co., Wellington, three shillings per tox, and by chemists and storekeepers—But mind you ask for Dr. Williams'. Substitutes are value-less.

# Soap Makers

#### Mr. John L. Milton

Senior Surgeon St.Jahn's Hospital for the Skin, London.

"From time to time I have tried very many different soaps and after five-and-twenty years and after five-and-twenty years careful observation in many thousands of cases, both in bospital and private practice, have no hesitation in stating that none have answered so well or proved so beneficial to the skin as PEARS' SOAP. Time and more extended trials have only served to ratify this opinion which I first expressed upwards of ten years are and upwards of ten years ago, and to increase my confidence in this admirable preparation."

### By Special Appointment HER MAJESTY *leen*

HIS ROYAL HIGHNESS THE ince of

#### PROFESSOR Sir Erasmus Wilson

Lute President Royal College of Surgeous, England.

"The use of a good spap is certainly calculated to preserve the skin in health, to maintain its complexion and tone, and prevent it falling into wrinkles. PEARS' is a name engraved on the memory of the oldest inhabitant; and PEARS' SOAP is an article of the nicest and most careful manufacture, and one of the most refreshing and agreeable of balms for the skin."
