

"MOSES," BY MICHAEL ANGELO.

"CHRIST," BY PROFESSOR SCIAPPEL.

**BEAUTIFUL EXAMPLES OF ANCIENT AND MODERN SCULPTURE.**

Michael Angelo Buonarrotti, born in 1475, in Christ, Italy, was, with the possible exception of the great Greek Pheidias, the greatest sculptor the world has seen. He worked solely in Rome and Florence, where his greatest works are still to be seen. Professore Scappet belongs to the modern school of German sculpture that in recent years has been coming to the fore. The above work was first exhibited in Berlin in 1907.
