Amongst the five hundred odd passengers who arrived in Wellington by the *Itabine* last week were 52 assisted immigrants, comprising 29 adults and 23 children. There were 19 non-assisted adults and 10 children, while 29 adults and 2 children were approved by the High Commissioner. The *Morayshire* due at Auckland from London on October 30th, is bringing 16 adult immigrants. The small packets at side show the departure of future colonists from Britain.
