The XXth Century Sewing Machine

NEW MODEL

Have You
 Seen
 It?

JUST OUT

Have You
 Tried
 It?

The Highest Type of Family Sewing Machine — the embodiment of Simplicity and Utility — the Acme of convenience.

Absolutely the lightest-running Lock-stitch Sewing Machine.

It only needs a mere touch of the treadle to start the machine. The use of ball-bearings, the superior design and mechanical excellence of construction throughout, all combine to make its continuous operation a pleasure — it runs so smoothly.

The new Bobbin Ejector is a marvel of ingenuity. No more annoyance — no trouble. A simple pressure of the finger on ejector instantly Lifts the Bobbin within easy reach.

Of its many valuable and unique features, the Automatic Tension Releaser commands notice. It is a veritable boon. Raising the presser-foot automatically releases the thread tension and allows the work to be freely withdrawn — no breaking of needles possible. Depressing it instantly restores correct tension.

The Attachments furnished with this machine are so conveniently arranged in the centre locking drawer — a separate place for each — as to be easily accessible. There is a full set, comprising the latest and best designs.

HAVE YOU SEEN IT?
 HAVE YOU TRIED IT?
