#### FEUILLETON.

#### Some Fisher Unwin New Publications.

HOUGH many books have been issued dealing with the public social life of the Second Empire, there is none that we can rememher that gives us such pleasant glimpses of the private life of the Emperor and Empress as are shown in Dr. Barthez's book, which is entitled "The Empress Eugenie and Her Circle," and of which an English translation has been made by Mr. Bernard Miall, for Mr. T. Fisher Cawin, who has issued it at 10/6 net.

The work takes the form of a collection The work takes the form of a collection of letters, written only for intimate read-ing, by Dr. Barthez, who was physician to the Prince Imperial. Too many me-moirs of the Second Empire fatigue us with the cheap pomposity and artificial ity of that sterile period; but Dr. Bar-thez-who writes from Saint-Choud and Empiritz-way fortuests in scaing the Barritz-was fortunate in seeing the Jarritz—was tortinate in seeing the patural, spontaneous, and human side of the Imperial couple. His professional duties were somewhat superogatory, the Prince being entirely in the hands of a masterful English nurse. When he is not required, or when the house party grows too hoisterous for his taste, he slips, up-stairs to write to his "dear and good Octavie." The doctor gives us a singular picture of the holiday Court, yet a plea-santer one than that left by most writers of the time: the Emperor, a little heavy and obstinate, but simple, kindly, ac-tively benevolent, and evidently lovable; the Empress, high-spirited and prejudiced, with the manners of a romping school-gid1 both always on the point of falling victims to enuui, and to escape it throw-ing themselves into the ordinary amuse-ments of the uncultivated; excursion after excursion, picnic after picele, and in the exemption. natural, spontaneous, and human side of number of the uncultivated; excursion after excursion, picnic after picnic, and in the evening, games, mostly of a kind that iavolves active "rugging," or the discussion of such subjects as magna-tism, fable-turning, etc., etc. Only to-wards the end of the book do we find near of the calibre of Merimee comman-decred to annuse the Imperial circle. The book should be read as giving a picture of two historical figures in their unaf-fected moments. fected momenta.

## Christmas: In Ritual and Tradi-tion, Christian and Pagan.

Mr. Clement A. Miles has written, and Mr. T. Fisher Unwin has published, a volume bearing the title of our headline, which threaws an exceedingly interesting light on the ritual observed in Christmas festivities. That much of the ritual ob-served in religious and other festivals are survivals of Paganism many people are aware, but how Christian and Pagan cus-tom and festivity became bleuded into one is a matter that is known only to these who have much a conjunction during the one is a matter that is known only to those who have made a serious study of the subject. In Mr. Miles' work an at-tempt has been made to give some idea of the manner in which Christmas is, and has been, celebrated in various parts of Europe, and to separate as far us pos-shile, the Pagan and Christian elements, showing, however, how one has influenced the other, many heathen practices having taken on a Christian form, while the Church's celebration has gained in warnth and humanity by contact with eutlier festal customs. The first part of the book is devoted to studies of the Christian aspects of the festival as re-flected in poetry, ritual and drama, while in the second part are described, and in the second part are described, and when possible explained, numerous Pagan and When possible explained, numerous a gen-tustans and superstitions belonging to Christmas and its neighbouring festivals. Care has been taken by Mr. Miles to pre-ferve the charm and picturesqueness pro-per to these festivals, and at the same time make his work of value to serious surfaces. udents.

#### Marriage.

A new novel by Mr. H. G. Wells is al-When nove by Mr. H. G. Wells is al-ways an event in the literary world; in-deed one might say a startling event of late. So candidly does he write on social evils and matters of sex. It is new novel "Marriage," however, contains nothing to thock readers, though the subject in Mr.

Wells' hands might easily have been made taboo to fastidious readers. It is about a marriage that at first promised badly, but ended bappily. As usual, Mr. Wells has used the book as a véhicle to convey to the world at large, for he has undoubtedly a large and intellectual audience, his ideas on politics, socialism, woman's suffrage, philanthronic fads, and, in short, on almost every popular move-ment going. But however we may differ with Mr. Wells, he is an author who is In short, on anose every papers with ment going. But however we may differ with Mr. Wells, he is an author who is always worth reading, though it is griev-ous to think of the great moral and social mentor he might have been had he not run amok on the sex problem.

#### Banned Books.

Mr. Clement Shorter, who is the editor of, and who contributes every week a most delightful literary letter to the "Sphere," has been delivering himself of a protest against the banning by the Cir-culating Libraries' Association of "The

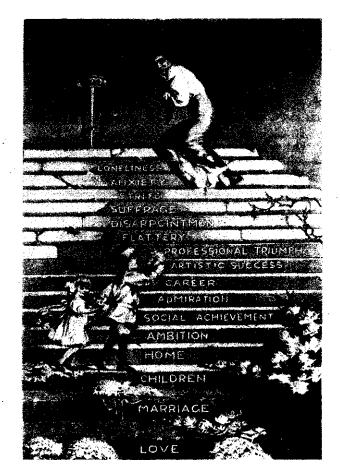

crimination should be shown in prohibit-ing, as in the case of "The Daughters of Ishunde," and certainly youth should not be allowed access to them.

#### Engenics and Love.

The science of eigenics as taught by the majority of its teachers would seem to bar sentiment in the choosing of mates, Sir J. Crichton Brown's views on the marriage problem, and bis interesting re-ference the other day to "Love at First Sight," has caused a good deal of dis-cussion. In the cause of the mater region. This caused a group wild of use cursion. In the course of the paper which he read at the conference of the sanitary inspectors in Sheffield, he said: "I an a believer in a how match not only from a romantic but from the sugeric point of view." Apropos of this deliver-ance, it is interesting to note that the Putrams have published a little book by the great Norwegian feminist. Ellen Kley, entitled "Love and Ethics," in which the author applies the theories of engenics to those intimate questional which concern every man and woman

#### Gift Book for Boys.

A few weeks and the gift season will be upon us, and parents, teachers and guardians will be grappling with the question of which book is most suitable to give their own boy or girl. A book for

LOOKING BACKWARD.

Daughters of Ishmael," by Mr. and Mrs. Kaufiman; "The Hussey," by Mr. James Lancaster; and Strindberg's "Confessions of a Fool" (English translation). Mr. Shorter, while he sees nothing to object to in any of these books, and who praises to in any of these books, and who praises highly the Kauffman's collaboration as "a work of the highest moral value," sees clearly, as all sensible people must see, that this banning is the finest adver-tisement these books could have. Now, that there are many social evils that re-quire removing is plain. And a united public protest is imperative to put down this particular evil, for social evils, such as are dealt with in the Kauffman's book, would become instantly non-existent is as are dealt with in the Kauffunn's book, would become instantly non-existent in the light of publicity. Concerning this question of immoral books, it has always seemed to us that a book is made moral or immoral according to the design of the writer. For the designedly immoral book we have the deepest and the most exe-crable contempt. But a greater dis-

boys which we specially recommend to any donor who does not think 7/6 too much to pay for their Christmas gift, in Bayard Taylor's "Boys of Other Coun-tries" (Putnams). The book is profosely illustrated, and the coloured frontispice-quite a work of urt.

#### A Holiday Companion.

Reders of "Punch" who are acquainted with "The Rabbits" and also those read-ers who remember that delightful melange, "The Day's Play," will be de-lighted to hear that. Mr. Mile, the "A.A.M." of "Punch," has another book "Å, A, M." of "Punch," has another book coming out with the Methuen's, entitled "The Hubiday Round." As in "The Day's Play," it is a collection of sketches and dialogues that have alrendy appeared in that leading humorous journal. There is no need to dilate on the many excellen-cies of Mr. Milne's work. The fact that he is a regular and a valued contributor to "Punch" is sufficient vouches.

### REVIEWS

The Turnstile : By A. E. W. Mason. (London: Hodder and Stoughton. Auckland : Wildman and Arey.)

Auckland : Wildman and Arey.) That the world is a very circum-scribed place, and that some marriages are indeed arranged by the powers that he will be strongly realised by the reader long before he reaches the end of Mr. Mason's very sterling romance, which re-lates how an unknown girl in South America sends a cable message, on the eve of his journey, to an Arctic explorer about to essay the discovery of the South Pole, and expressive of her heart fett wishes for a triumphant refurn, a mes-sage which he never troubles to read, so concentrated are his thonghts on his pro-jected task. Years after he meets this girl in London and mairies her, still un-aware that he was the hero of her girl-hood, and in almost as great ignorance of her real character as he was of the con-tents of her colord message. Mr. Mason is better known in this Dominion we aware that he was it he hero of her girl-houd, and in abnost as great ignorance of her real character as he was of the con-tents of her cabled message. Mr. Mason is better known in this Dominion we think, as a writer than as a very able member of the House of Commons, where he is looked upon as a no inconsiderable anthority on Indian matters. What he thinks of Western education for Indian Princes is vigorously told in his superbly written "Broken Road." As representa-tive of an important industrial constitu-ency Mr. Mason takes himself seriously. But not too seriously, as will be seen an "The Turnstile" which, while it is emi-ently a novel of characterisation, is also hargely a novel of characterisation, is also hargely a novel of thigh politics. Vocation would seem to be the point on which this story turns. For Mr. Mason argues clearly that whalever deviations a nan may make from his true vocation during his career he will always be found at its nost momentous turns, grappling with despair and regret for not having follow-ed the path ordained for him by fate, or what you will. Captain Rames, the hero of this story, was ordained for explora-tion, but turned aside to enter the par-timentary areas for which he had no vocation. He marries a girl who was prepared to loce him "for the dangers he had passed." because she had money, and ould help him in his political career. But he learns to love her for her fine qualities and in the light of that hore learns that bis duty lies in following his true voca-tion of exploration. Much as we appre-dimentary represention when a sheat bis duty lies in following his true voca-tion of exploration. Much as we appre-dimentary to fur. Mason's time story, "The Turnstile." is most interesting to us as an expression of his views on the English Land Bill, and the qualities he-thinks necessary that the aspirant to parliamentary represention when when they the House of Commons. And we cordially far readly counts in any walk of life, our readers on no account must mist "The

Wildman and Arey.) <sup>10</sup>\*\* Hewlett has in "Mrs. Lancelot" "A Hewlett has in " Mrs. Lancelot " chosen as his period that of the reign of William IV. during the days when the passing of the Reform Bill was the most important measure of the day. Mrs Lancelot was the very young wife of Charles Lancelot, a clerk in the foreign office who was thoroughly induced with the conviction that a great career was before him. To be sure, his present position, though he was a man of good family who had influential connections, was a lowly one, but it had thick a great inter wave to be only be as a man of good family who had influential connections, was a howly one, but it had been said more than once that Lord Monthermer, a persona grata at fourt, and a rising star in the political world, had his eye on him. But though Laneelot saw his Marquis become a Dake, and the Prime Minister's eve fell upon Mrs, Lamedot at Mrs, Mayduke's, who was upon this anylicious occasion the Duke's hostess. Though the Duke was married and had grown op some he had still requires hostess. Though the Duke was married and had grown op some he had still that get like hostes. Though the Duke was married and had grown op some he had a great liking for Mrs, Lancelot grew up in him, which society perceiving and though the borely conducted to recognise Mrs, Lancelot's existence before, now poored upon her favores and invitations by the score. Now, though Lancelot is my chance with the Duke. And a the satifaction of being appointed secretary to the Duke which involved the residing in a suite of apartments in the ducal house. A trial of Mrs Lancelot's virtue proceiver and henceforward, though his love for
