Giogy King is a bright bay, with black points, standing over 16 hands 1 inch, symmetrically and powerfully builts and isa true type of the weight-carrying theoroughbred of his many good points. His performances on the turf (ode appendix) at all distances and weights were of ater-ling merit, and proved him to be a first-class racehorse, and the fact that her an into a place very time he started. with one exception, is sufficient proof that he was gifted with a great dash of pace, starning, courze, and a grand constitution. In all he started 16 times, his record being 7 firsts, 6 seconds, 2 thirds, and only once unplaced. The following are some of Gipsy King's performances on the Turf :— As a Two-yEAR-OLD.—Won Dunedin Two-year-old Sel-ling Race. Won Dunedin J.C. Champagne Stakes (Sex-tant fourth). Won D.J.C. It will be noticed that Seaton Delaval is foll of the most fashionable and best-staying English blood, and it is therefore not surprising that he was a stayer of the first water. Seaton Delaval won as a two-year-old, as a three-year-old, and as a four-year-old, and quitted the turf in 1894, as a five-year-old, sound in wind and limb. For quality and beauty of outline it would indeed be difficult to match him, and he ought to be a most successful stal-lion. The more noteworthy of the many triumphs were winning the Great Northern Handicap of £500 at York, distance 13 mile, and the Great Northumberland Plate of £1,000, at Newcastle, 2 miles, and in this race he beat the winners of the Chester Cup, of the Manchester Cup, and of the City and Suburban. He also rau second in the Great Metropolian Stake at Epsom, 24 miles; only beaten a head; and in that race had behind him the winners of the Great Yorkshire Handicap, of the Goodwood Stakes, and of the Northamptoushire Stakes. The London Sportsman of December 19, 1894, writes as follows:—" As a son of the very successful size Melton, a good-looking, sound horse, and a rare stayer. Seaton Delaval is pretty sure to make his mark at the stud, and, indeed, it is a long time since so good a horse was sent to New Zealand." Melton was sold some years back to the Italian Govern-ment for 610,000 and English breader have ever since

since so good a horse was sent to New Zealand." Melton was sold some years back to the Italian Govern-ment for $\pm 10,000$, and English breeders have ever since been regreting that he was allowed to leave the country, as his stock have been uniformly successful. Owing to his being abroad, there were no two-year-olds to represent bim in 1894, but in reviewing the racing season of that year, the London Times of December 14th last says:-"Melton, with 23 winners of over $\pm 13,000$, should be given precedence over Wisdom, for Best Man, who won 8 races, is undoubtedly his son, and as Melton's progeny have won $\pm 25,000$ in the last two seasons, and have included such animals as Best Man, Avington, Bullingdon, and Indian Queen, it is easy to understand the regret felt at his being exported to Italy."
