THE Unfailing Maori Remedy,

TAKARO CURES

Cuts, Mange, Ulcers, Sore Teats, Saddle Galls, Cracked Heels, Sprains, Swellings, Greasy Heels, Over-reaches, Swollen Udders, &c., Sores and Wounds of every description on HORSES, CATTLE AND DOGS.

TAKARO is prepared both as an OINTMENT and a LOTION. Flies will not approach any part to which the Lotion has been applied.

On account of its peculiar taste, animals will not lick Takaro from the wound.

In every case in which Takaro has been used, the cure has been so speedy and so complete that the proprietors feel fully justified in recommending it as the BEST REMEDY OF ITS KIND YET DISCOVERED. Its value has been thoroughly proved by leading HORSE-OWNERS, TRAINERS, TRAMWAY MANAGERS, CARRIERS

and others, who all speak in the highest terms of its wonderful healing properties, as evidenced by the following letters selected from a number of

TESTIMONIALS.

From Mr. H. Telford, owner of the well-known steeplechase horse, Aparima. Invercargill, March 24, 1892.

SIRS.—This is to certify that I have used your Takaro on an over-reach on my horse, 'Aparima,' and can safely say that it is one of the best healing ointments I have ever used. H. TELFORD.

N.B.—On Easter Monday, shortly after this cure had been effected, Aparima won two races at Riverton—the Hunters' Steeplechase and Open Steeplechase.

From Mr. J. Bray, Manager Invercargill Tramway Company. Invercargill, March 5, 1892.

SIRS.—Having used Takaro as a remedial for cuts, bruises, etc., I have much pleasure in testifying to its efficacy; in fact I consider it the best preparation that has yet come under my notice. J. BRAY.

From Messrs. D. and J. Bacon, of the Queen's Livery Stables, Dunedin, by appointment to Lord Onslow. Dunedin, July 20, 1892.

We have much pleasure in certifying that we have used your Takaro Ointment and Lotion, and find it to be one of the best preparations we have ever used for wounds, cuts and bruises, and greasy heels on horses. When properly applied it acts very quickly. It is an invaluable application for fresh flesh wounds, as flies will not approach the part to which it has been applied. We can confidently recommend Takaro to anyone owning horses and cattle. D. & J. BACON.

From Messrs. Smith and McKewan, Tramway Stables, Dunedin (employing more than 200 horses). Dunedin, March 21, 1892.

SIRS.—We have much pleasure in certifying to the merits of the New Zealand Ointment and Lotion named Takaro, which we have used on our horses. It is an excellent ointment for sore shoulders, healing the wound in a wonderful manner. We have tried it and the Lotion for greasy heels, and found them to do all that is claimed. We strongly advise horse owners to try them, as without doubt they are the best remedies we have tried. SMITH & MCKEWAN.

From James Gibson and Co., Coal Merchants, Dunedin. Dunedin, July 22, 1892.

SIRS.—I have much pleasure in testifying to the good qualities of your Takaro Ointment and Lotion. I will instance two cases which will give you some idea of their value. One was a bruised heel. Half the heel was knocked off by a log of timber. This was cured in a very short time with your Ointment and Lotion. The next case was a very obstinate one of Sallenders with considerable swelling and discharge. A diuretic ball, and a week's treatment with the Takaro Lotion and Ointment removed both the discharge and the swelling. The gratifying feature to my mind is that in both cases the horses were able to do their work all the time, a thing which I could scarcely have believed had I not had them under my own observation. I have much pleasure in recommending your remedies to horse owners, as I think them invaluable. JAMES GIBSON.

From Messrs. James Duthie & Co., the well-known Railway and General Carriers, and Contractors to the New Zealand Government. Dunedin, July 12, 1892.

SIRS.—It gives us much pleasure to testify to the excellence of your Takaro Lotion and Ointment. We have used both in our stables for Greasy Heels, Wounds, etc., and have always found it act most satisfactorily, and we shall have much pleasure in recommending it to all horse proprietors. JAMES DUTHIE & CO.

From the Weekly Press, July 21, 1892. 'Christmas' is working away at Riccarton, and seems sound again on his off foreleg, which was doctored with a Dunedin preparation called Takaro.

Of all the preparations made this is the very chief, Nought can compare throughout the world with Patterson's Horse Relief.

'Twill cure Mud Fever in the Horse, Sore Udders of the Cow,

Ringworm in Calves, or any hurt that happens to Bow-wow.

Some men profess to tame the horse like Rarey or Bellew.

But PATTERSON can keep him sound—that's more than they can do.

The Horse, although he cannot speak, will thank him with his neigh,

The Cow will moo, the Calf will bleat, the Donkey he will bray;

Dogs lick the hands and frisk about—see how they wag their tails,

Because they are cured—for PATTERSON'S RELIEF it never fails.

Oaks), Gaillardia, Lady Trenton, Light Artillery (one of the best two-year-olds of the past season)—all good winners. Cuirassier himself ran second to Manton in the Hawke's Bay Guineas (beaten a head), and won the Great Northern Derby (beating Manton, Raglan, Hilda, &c., in the fast time of 2min 40secs), the Great Northern St. Leger, Railway Stakes Handicap and Trial Stakes.
