STEVENS' OINTMENT,

The only Substitute for Firing Horses, penetrates below the skin, and unlike ordi

nary blisters reaches down to the actual cause of the lameness when due to some hard bony growths.

The Veterinary Surgeon to H.M. The King of Italy, writes:—

"I have always had splendid results from the use of

Stevens Ointment."

Now, here is where the speciality excels, namely, in its RELIABLE results, and horse-

men when giving orders for Curing Bone-lameness should always specify this reliable preparation.
