

FERRO NICKEL MANGANESE

Is adopted by four National Governments, twenty-eight Railroad Companies, and most up-to-date progressive foundries in Europe, as well as in the United States.

Several Arsenals have given Ferro-Nickel Manganese a hearty endorsement, because it is manufactured entirely on scientific principles and claimed to be **ABSOLUTELY THE BEST FLUX** for fluidity, and the foremost in the market for giving purity, ductility, and softness to the metal. Price, 10 cents per pound, U.S. Cy.

Beware of imitations or alloys sold at double or triple their price.

DEAR SIRS,—I received your Cuff Links, also Watch Chain and Pendant. However, I enclose 4s 9d for another pair of Cuff Links, along with a Watch Chain and Pendant, for a lady friend of mine. R. MOORE.
