REDCLIFFE

Architects should specify REDCLIFFE O'BOWN Brand Galvanised Corrugated
Iron. There is none better manufactured. Lighter sheets of other brands must
be thinner, and will not last as long or give the same satisfaction. Contractors should
not be misled by erroneous statements, such as are advertised by rival importers.

GALVANISED

REDCLIFFE is the cheapest first-class Iron in the market. The sheets are wider,
thus larger surface can be covered with REDCLIFFE than with other brands.
REDCLIFFE has been more largely imported into New Zealand during the last
20 years than any other brand, and experience proves that every sheet will be
found perfect.
