MCFARLANE'S PATENT HORSE COVERS.

Archibald Clark & Sons, Limited.
MANUFACTURERS, AUCKLAND.

This Cover does away with the annoyance usually caused by ordinary covers becoming displaced, as in the case of a horse rolling. There is no crupper used, consequently the horse does not suffer from chafing or cutting of the tail, which often causes lock-jaw. The mode of attachment is simplicity itself, viz., the straps for fastening going round each hind leg, as shown in above drawing.

This Cover has been recognised by Experts as being an Article in advance of anything of the kind ever offered to the Public.
