PILES.

INTERNAL, EXTERNAL, BLEEDING AND ITCHING CURED BY "THE ZANN DOUBLE ABSORBING TREATMENT" WITHOUT OPERATIONS, CUTTING SATURATING, CAUSTICS, OR CRUSHING.

Piles are divided into two classes, internal and external; both classes frequently causing intense pain, itching and bleeding. External piles may be either cutaneous (that is usually in the form of distinct tags) with unbearable itching and pain, or thrombotic (for the reason that they are caused by a blood clot), with acute inflammation, swelling and pain. Internal Piles are much more serious than external Piles, and frequently life is endangered, cases being known in which from half to one gallon of blood had been lost at one time, leaving a mass of tissue known as the hemorrhoidal mass. This mass always protrudes, and through friction becomes much ulcerated. Only you who suffer know the agonising pain, the sleepless nights and the miserable days which accompany this condition. Avoid operations, cutting, ligaturing and caustics. They are drastic measures, which are rarely successful. You really can be cured easily and quickly by using the "Zann Double Absorption Treatment." The first application gives instant relief, and a general improvement sets in at once. Don't delay. Write to-day to the "Zann" Proprietary, 66, Lambton Quay, Wellington, enclosing postal note for 4/6 and receive in plain wrapper per return post a full treatment, and cure of internal, external, bleeding and itching piles. All correspondence is strictly confidential, and each treatment is guaranteed to cure, or your money instantly returned.

Note Address—The Zann Proprietary, A. 66, Lambton Quay, or Box 343, G.P.O., Wellington, N.Z.
