

The Insatiable French Artillery, and a Magnificent Hospital Ship in the Service of France.

A POWERFUL FRENCH GUN INGENUOUSLY CONCEALED FROM VIEW ON THE EASTERN FRONT IN MACEDONIA RENDERS INVALUABLE AID. These huge field pieces have been used by the French in the Eastern war zone with similar effective results to those achieved in the Western area. It is confidently anticipated that the up-to-date French artillery will materially assist towards the early victory for which the Allies are striving so unceasingly and have made supreme sacrifices.

A FRENCH HOSPITAL SHIP TAKING ABOARD NECESSARY EQUIPMENT BEFORE PROCEEDING TO SALONIKA TO THE AID OF THE WOUNDED. The transportation of wounded and sick French soldiers from Salonika to the hospitals in Algeria and Central France has been one of the most important missions entrusted to the Red Cross Service. Thanks, however, to the magnificent steamers placed at the disposal of the French War Office by the leading maritime companies, and the great care exercised by the medical authorities, the work of conveying the wounded has been carried out expeditiously and to the general satisfaction of all concerned.
