The RELIABLE Light Car

Finished with Government contracts, we are once more heading again towards civilian needs, and are well advanced with our post-war programme, which is to revive the production of the famous A.C. Light Car with many improvements.

It is the safest selection you in the colonies can make, because it is the one light car upon which you can place every dependence. It is the one light car with which you know you may safely undertake any cross country journey; meeting and successfully encountering anything in the way of roads, tracks, hills or water splashes—and know you will make the journey with speed, safety and comfort without any annoying stop on account of mechanical breakdown.

You don't get them with an A.C. Orders can be placed direct or through any reputable motor firm now.
