RESPECTING "BUSHY PARK": WHAT MR. MOORE HAS TO SELL.

ALTHOUGH THE DISPERSAL OF THE BUSHY PARK HERD OF STUD HEREFORD CATTLE AT KAI IWI, WANGANUI N.Z., HAS BEEN NECESSITATED BY THE LOSS OF A LARGE AREA OF COUNTRY, IT DOES NOT FOLLOW THAT FRANK MOORE WILL RETIRE FROM FARMING ALTOGETHER.

He will still have HIGH-CLASS THOROUGHBRED HORSES, and RUN HEREFORD CATTLE FOR SALE.

"SIGNOR," who is now at the head of THE THOROUGHBRED STUD, is a horse of exceptional quality, and has to his credit many great performances on the turf, both in Australia and New Zealand. These include the Australasian record for two and a quarter miles—3 minutes 53 2-5 seconds, carrying nine stone—which he still holds.

Being by Pilgrim's Progress (imp and a son of Isonomy) from Ma Mie Rosette, by Trenton from Bonnie Rosette (imp., and dam of Mountain King, Majestic, Kinglike, Scottish King, Undecided, and Koran) by Barcaldine from Bonnie Rose; it will be seen that "SIGNOR" possesses all those qualifications which go to make a sire great.

"SIGNOR'S" progeny, now rising two years old, give every promise of being as good as their sire. They are distinguished for their character, size, good clean bone, and freedom from blemish of any kind.

Present foals by "SIGNOR" are even better than his yearlings. There are three things necessary to make a successful sire, and these are—character, proved stamina, and the best strains of staying blood. "SIGNOR" possesses these qualifications in a remarkable degree.

THE RUN HEREFORD HERD, originally descended from cows purchased from the Auckland Stud Company, was founded by the present owner's father.

The best of stud bulls were always used, with the result that stock bred at Bushy Park is now unsurpassed for the production of first-class beef.

Those requiring further particulars should communicate with FRANK MOORE, Bushy Park, Kai Iwi, Wanganui, when complete information and definite terms will be at once furnished.

Important to Farmers.

WHAT SLAG ARE YOU USING ?

ARE YOU getting the Greatest Possible RETURN for Your OUTLAY? If you are using "BILSTON" then YES.

"BILSTON" is not A Slag, it is THE Slag. 19 1/2% to 21% Phosphoric Acid
