ADEQUATE SERVICE.

The more exacting the test, the more marked
is the Quality of the Crossley Car.

THIS was demonstrated during the war period in a manner which leaves no room for doubt. To-day the Crossley is rendering the same adequate service, The standard of the Quality Car is always maintained.

THERE are logical reasons for this. Right from the initial to the final stages in its building, the strictest supervision of every part is maintained to ensure that its mechanism is perfect, and in the selection of every piece of material the highest skill and care is exercised. The result in the finished car is summed up in the word Quality. Crossley manufacture and Quality are synonymous terms.
