

## From the home of British Engineering

**E**NGINEERING ability—  
always closely identified  
with Manchester as one of  
Britain's greatest Engineering  
centres is reflected in the  
Crossley Car.

From radiator to back axle it is  
constructed on the soundest en-  
gineering principles, backed by  
many years of success in the con-  
struction of automobiles. All that  
skill and care can give goes to the  
construction of every part, and  
rigid methods of inspection

ensure that the material used is  
of the highest possible quality.

If you contemplate the acquisition  
of a motor car, it will pay you to  
remember that long life and effi-  
cient service can only come with  
quality. If you want a car which  
will take you swiftly and surely  
wherever a car can go, investigate  
the claims of the Crossley.

Full details from the nearest  
agent named below. Early de-  
livery can be arranged.
