96	Statesman ..	125			
<i>Yellow or Green Varieties.</i>					
96	Cleopatra ..	125	72	Dunn's ..	125

(N.B.—The aforementioned maximum and minimum sizes refer to Canadian case packs; but, as this case when packed with the necessary bulge ( $\frac{3}{4}$  in. top and bottom) holds more apples of any given size than the normally packed New Zealand standard case, the maximum and minimum number of apples in reference to the latter case shall be the next lower packing count, as shown on the New Zealand standard-case packing-chart, to those set out above as the maximum and minimum sizes of each variety.)

## REGISTERED EXPORT NUMBER.

The registered number issued to all growers under the Local-market Regulations will be declared to be the grower's registered export number also. The registered number of each grower must be branded on each case of fruit exported by him; provided that in the event of any group of growers pooling their fruit for export such group may designate its fruit by using any pool number allotted by the New Zealand Fruit-export Control Board. Likewise any packing organization to which a registered number has been allotted may use such registered number only, provided that in either instance each individual grower's fruit is shown separately on the advice-note for examination, and stacked in separate lots, so that the Inspector may have no difficulty in identifying the particular lot under examination.

Should unavoidable circumstances prevent the adoption of this procedure, resulting in a line comprising a large number of cases being submitted as one line, it must be definitely understood that the examination of same will be solely at the grower's risk, and in the event of any fruit forming a portion of the line being found to be unsatisfactory the whole line will be liable to rejection.

## PACKING.

Plain or corrugated strawboard or wood-wool shall be used on top and bottom of cases.

## WRAPPING-PAPER.

Apples of the various sizes as set out below shall be wrapped in paper of the size indicated opposite each respectively:—

Sizes 64's to 80's (both inclusive), paper 11 in. by 11 in.

Sizes 88's to 113's (both inclusive), paper 10 in. by 10 in.

Sizes 125's to 198's (both inclusive), paper 9 in. by 9 in.

Sizes 216's to 234's (both inclusive), paper 8 in. by 8 in.

In the event of the size of the paper used being smaller than that specified above for any respective size of apples, such apples shall be double-wrapped by overlapping two papers.
