

*Jersey C.O.R. Bulls.*

For the benefit of readers who are not conversant with the details of the C.O.R. system, it may be repeated that a bull is entitled to be called a certificate-of-record bull when he has sired four certificate-of-record daughters, each daughter being from a different dam. In addition, the Jersey Breeders' Association recognizes a special class for what it terms champion butterfat bulls. The qualifications for a champion butterfat bull require that the animal must have at least five C.O.R. daughters from different dams, each daughter having doubled its minimum butterfat requirement for a certificate. Some 266 Jersey bulls have now qualified for the C.O.R. list, while twelve of these are eligible for inclusion in the champion class. In the following list champion butterfat bulls are marked †. The list includes those C.O.R. bulls which have added to their number of C.O.R. daughters during the year, or have during that period newly qualified for the class.

Table 5.

Key to numbers opposite names: First number—first-class C.O.R. daughters; second number—ditto, qualified on subsequent performances; third number—second-class C.O.R. daughters; fourth number—total of preceding numbers. Bulls marked \* qualified for C.O.R. list in 1927.
