

Keep Production in Top Gear . . . FEED MOOSE

SHEEP

For Lambs, Hoggets and Ewes balance low-Protein autumn pastures with high Protein Moose Oilcake.

Moose keeps production at the highest level by supplying extra concentrated nourishment when ordinary stock rations fall in food value.

COWS

Maintain milk yields throughout dry periods by feeding Moose.

PIGS

For growth and health include Moose Linseed Oilcake Meal in your pig ration.

Write to W. & R. Fletcher (N.Z.) Ltd., Box 663, Wellington, for full information on balanced rations for livestock.

MOOSE

LINSEED OIL CAKE NUTS AND MEAL
