 MILKS ON LOW VACUUM
 PREVENTS EXCESSIVE "QUARTER" TROUBLES
 MAINTAINS UDDERS EVEN AND SQUARE
 ONLY ONE SET OF CUPS NEEDED IN EACH BAIL

IT'S THE NEW

This is the time of the year when too many cows begin to "hold up" their milk—by hay-making time milking will become a real problem because too many machines fail you just when you most need them. The "New L.K.G." will milk fast and clean—all the year round—because IT STAYS SATISFACTORY.
