

Kelvinator

PUTS VICTORY FIRST

On all the fighting fronts of the world, **Kelvinator** is proud of its record of service—a service that has as its objective the alleviation of suffering—the safety and protection of the fighting men of the United Nations—and a contribution to Victory in the extra efficiency made possible by this modern amenity. **Kelvinator** not only pioneered electric refrigeration, but it has carried its traditional reliability and steadfastness into the front line of war with full battle honours.

On the Home Front, too, despite restricted facilities for production, **Kelvinator** can still supply commercial refrigeration to War industries and businesses, and Domestic Units in limited quantities to householders.

Special commercial units are available for any of the following:—

Farms	Food Stuff
Butter Factories	Manufacturers and processors of—
Cheese Factories	Meat, Fish,
Milk Cooling	Poultry, Eggs,
Dairies	Vegetables, Fruit,
Bakeries	Ice Cream
Butchers	Reserve Food Storage
Hotels, Restaurants and Milk Bars	And many others
Grocers
