Combat Infection with **DETTOL**

Read this Stock Breeder's Report:

"A calf which had been dead four days was removed from a cow. The removal was successful, but the smell was very offensive. He used undiluted Dettol on his instruments, and also syringed the cow with undiluted Dettol. The result was excellent, which was far more than expected, and the cow was able to walk a little distance next day, and soon got perfectly well."

A FREE BOOKLET, "Dettol in Veterinary Practice," will tell you of this new antiseptic and how to use it for the safe relief of many distressing conditions. Write to Reckitt & Colman (New Zealand) Ltd. (Pharmaceutical Dept.), Bond Street, Dunedin.
